Who We Are

Delhi Tin Met Ltd. is a leading manufacturer of plastic bottles for a variety of industries, including personal care, food and beverage, pharmaceutical, and chemical. We have been in business Since 1975, and have built a reputation for producing high-quality, reliable products that meet the specific needs of our customers.

Our state-of-the-art manufacturing facility is equipped with the latest technology & machinery, allowing us to produce bottles in a wide range of sizes, shapes, and colors. We use only the best quality raw materials to ensure that our bottles are durable and able to withstand the rigors of daily use.

In addition to our standard product line, we also offer custom design and manufacturing services to meet the unique needs of our customers. Our team of experienced engineers and designers work closely with our customers to create bottles that are perfectly suited to their specific requirements.

We are committed to provide excellent customer service and support, and our team is available to answer any questions and help with any issues that may arise. We pride ourselves on our ability to deliver products on time and on budget, and we are dedicated & meeting the needs of our customers.

Delhi Tin Met Ltd. is also committed to environmental sustainability, We are continuously working to reduce our carbon footprint and implement sustainable manufacturing practices in our facility.

Thank you for considering Delhi Tin Met Ltd. as your plastic bottle manufacturer. We look forward to the opportunity to work with you and help your business Grow.

IBM Bottles

Co-ex & IBM bottles made using a co-extrusion & Injection Blow Moulded bottles. This process involves extruding multiple layers of plastic simultaneously to create a bottle with multiple layers of different materials. This can provide additional benefits such as improved barrier properties and increased strength.

HDPE Cans

HDPE Can is made from High-Density Polyethylene (HDPE) plastic. HDPE Can are lightweight, chemical resistant and easy to carry around. They are also weather resistant and can withstand exposure to sun, rain and other environmental factors. They are also resistant to corrosion and rust and can last for a long time even with frequent use. They are also easy to clean and maintain.
